

A Distinguished Addition

Jesse L. Kolb, PE

NTH Consultants is pleased to announce that Jesse L. Kolb, PE, a 15-year veteran in the environmental remediation and water/wastewater process design arenas, has joined the NTH team.

Delivering...

- **Compliant environmental remediation alternatives and system construction**
- **Effective design, planning and construction oversight of Remediation Systems**
- **Process design engineering applicable to water and wastewater systems**

Certificates and Licensure

- **P.E. – Michigan**
- **Industrial Wastewater Treatment Plant Operator, Gas Stripping**
- **Certified Stormwater Operator – Industrial Sites**
- **Certified Stormwater Operator – Construction Sites**

Serving an extensive federal, state, municipal and industrial client base, Jesse has provided design expertise and managed numerous contaminated soil and groundwater remediation projects; and has planned, designed and provided construction oversight for diverse water/wastewater process systems.

Staying abreast of federal and state regulations, Jesse works diligently to keep clients' projects in compliance. He has developed detailed basis of design documents, remediation system construction specifications, operations and maintenance plans, and preventative maintenance schedules. Additionally, Jesse has expertise with remedial investigations, feasibility studies, Spill Prevention Control and Countermeasure and Pollution Incidence Preventions Plans, Storm Water Pollution Prevention Plans, and prepared NPDES Permit applications.

We welcome Jesse, and look forward to sharing his expertise with our clients. Jesse can be reached at our Lansing office at **(517) 321-8528** or **jkolb@nthconsultants.com**

Headquartered in Detroit, Michigan, NTH is a 230-person firm operating nine offices in Michigan, Ohio, and Pennsylvania. The firm provides a wide range of professional services in infrastructure and environmental engineering.
